EDUCATION

Software Engineering

University of Brasília
2016 - 2021

LANGUAGES

Portuguese (Native)
English (Intermediary)
Spanish (Basic)

CAREER PROFILE

My life goal is to be an active contributor to the software development community, thriving to achieve smart and useful solutions.

EXPERIENCES

Part-Time - React-Native Developer

2019/06 - Present

[MediPreco](#)

At this Job, I am the main React Native developer of the MediPreco's app. I create most of the new features on the app, rewrite legacy codes and help other people on their projects. I work side by side with excellent professionals and exchange students from many countries.

Internship - Full-Stack Developer

2018/09 - 2019/05

[Ministry of Economy](#)

Software Lab

At this Internship, in addition to developing open source projects and maintaining a DevOps culture, I learn several technologies by testing their possible uses for the Government. Among them:

- Ruby on Rails
- Django
- Jekyll
- Airflow
- Metabase
- Swagger

Ministry's Github: <https://github.com/mdicgovbr/>

PROJECTS

[MediPreco](#) - MediPreco is a startup accelerated by ACE and its goal is to cover all aspects of people's health, contributing to improve their overall life quality. Companies like Leroy Merlin and Novo Mundo are using our services.

[Maratona Linux](#) - The Maratona Linux consists of a set of packages that modify a standard installation of ubuntu. This Ubuntu modification is used as the official programming environment for competitors of the Programming Marathon in Latin America. I am developing this as my final project in Software Engineering Bachelor's.

[Dulce](#) - Dulce App is an application developed in react-native to contribute to the organization of schedules of health officials. (Made in the Discipline Software Development Methods - UnB)

[SNC](#) - National System of Culture's Platform - SNC - developed in Django.

[Portal NBS](#) - NBS Consultation's Platform - Brazilian Names of Services, developed in Ruby on Rails.

[Schedules](#) - Todo list made with Flutter - just for fun

SKILLS & PROFICIENCY
